

**Product:**            **Anti-NF kappa B p50**  
                          **N-terminal**  
**Catalog #:**        **01-8661**  
**Amount:**         **200 ml**

---

**CATEGORY:**                    **Rabbit polyclonal**  
**IMMUNOGEN:**                Synthetic peptide of N-terminal of human NF  
                                      kappa B p50 protein  
**FORM:**                         Affinity purified IgG (Protein A chromatography),  
                                      in PBS (pH 7.4) containing 1% BSA and 0.05%  
                                      sodium azide  
**ANTIGEN RECOGNIZED**  
**IN SPECIES** (tested so far):    Human KG-1 cell line, human Raji cell line  
**SPECIFICITY:**                NF kappa B p50 protein, N-terminal  
**APPLICATION:**                Immunoblotting (western)  
                                      Immunohistochemistry, suitable for formalin - fixed  
                                      paraffin-embedded tissues, after microwave  
                                      treatment (10 min in 10mM Citrate Buffer, pH 6.0)  
**CONCENTRATION:**             0.1 mg/ml  
**WORKING DILUTION:**         5 µg/ml for immunohistochemistry.  
                                      1-5 µg/ml for immunoblotting  
                                      The optimal working dilution should be determined by  
                                      serial dilution  
**STORAGE:**                    2-8°C for immediate use, or at -20°C (aliquot)
