

Product: Mycoplasma pneumoniae Antigen
Catalog #: 12-3064
Amount: 100 ml

STRAIN: M. pneumoniae strain FN
FORM: Mycoplasma components suspension, Grade 2, in PBS
PURIFICATION: Mycoplasma organisms are harvested by centrifugation, washed in pBS and extracted using ether. Residual ether is removed from aqueous phase by bubbling with nitrogen gas. The resulting antigen preparation contains soluble mycoplasma components in PBS.
CONCENTRATION: 2 mg/ml protein
APPLICATION: ELISA
BUFFER: PBS
SAFETY: The antigens have been inactivated by ether inactivation. Use standard laboratory precautions before handling this material.
STORAGE: -20° - 70°C, **Avoid repeated Freeze/Thaws**

This product is sold for laboratory research use or further manufacturing only and should not be used for human therapeutic or diagnostic applications. The information presented is believed to be accurate; however, said information and products are offered without warranty or guarantee since the ultimate conditions of use and the variability of the materials treated are beyond our control.
