

Product: Parainfluenza 3, grade 2 Antigen
Catalog #: 12-3065
Amount: 100 ml

STRAIN: C243
FORM: Grade 2 antigen
CULTURED IN: Vero Cells
BUFFER: MEM
PREPARATION: Optimally infected cells are disrupted by sonication and then subjected to low speed centrifugation. The clarified suspension is concentrated by crossflow ultrafiltration.
The resulting antigen preparation contains a high concentration of virus and viral components as well as some cellular materials suspended in MEM. This antigen can be used “as is” in a variety of proven immunoassay procedures or may be further purified for specific applications.

PROTEIN CONCENTRATION: 1.93 mg/ml, determined by dye binding assay
STORAGE TEMPERATURE: at -70°C, **Avoid repeated Freeze/Thaws**
INACTIVATION: Gamma radiation inactivation, certificate # 1106 dose 33.7-43.8 KGY. Effectiveness determined when no detection of growth in two blind passages under the original culture conditions.
HAZARDS: We are aware of no specific hazards associated with this product. The reagent has been inactivated and should contain no infectious material.
Generally accepted good laboratory practices appropriate to biological reagents should be employed when handling this product.

This product is sold for laboratory research use or further manufacturing only and should not be used for human therapeutic or diagnostic applications. The information presented is believed to be accurate; however, said information and products are offered without warranty or guarantee since the ultimate conditions of use and the variability of the materials treated are beyond our control. Nothing disclosed herein is to be construed as a recommendation to use our products in violation of any patents. Under no circumstances shall ARP American Research Products, Inc. be liable for damages, whether consequential, compensatory, incidental or special, strict liability or negligence, breach of warranty or any other theory arising out of the use of the products available from ARP American Research Products, Inc. Nothing contained herein warrants that the use of the products will not infringe on the claims of any patents covering the product itself or the use thereof in combination with other products or in the operation of any process.
