

**Product:**            **Carcinoembryonic Antigen  
(CEA), Iodination Grade**

**Catalog #:**        **12-4112**

**Amount:**         **50 mg**

---

**SOURCE:**            Human Liver Adenomas

**FORM:**             Liquid in 50mM Tris HCl, pH 7.5

**PURITY:**            > 98% by SDS-PAGE (single band)

**CONTAMINANTS:**    CA125                 < 1%  
                          CA19-9                < 1%  
                          CA15-3                < 1%

**STORAGE:**         -20°C, Avoid repeated freezing/thawing cycles

**SAFETY:**            Negative for HBsAg, HIV-1/2 antibody & HCV nonreactive  
                          when units tested individually.

Because no test method can offer complete assurance that products derived from human source will not transmit infectious agents, it is recommended that this product be handled with the same precautions used for patient specimens.

This product is sold for laboratory research use or further manufacturing only and should not be used for human therapeutic or diagnostic applications. The information presented is believed to be accurate; however, said information and products are offered without warranty or guarantee since the ultimate conditions of use and the variability of the materials treated are beyond our control. Nothing disclosed herein is to be construed as a recommendation to use our products in violation of any patents. Under no circumstances shall ARP American Research Products, Inc. be liable for damages, whether consequential, compensatory, incidental or special, strict liability or negligence, breach of warranty or any other theory arising out of the use of the products available from ARP American Research Products, Inc. Nothing contained herein warrants that the use of the products will not infringe on the claims of any patents covering the product itself or the use thereof in combination with other products or in the operation of any process.
