

Product: Lactoferrin
Catalog #: 12-7635
Amount: 25 µg

DESCRIPTION:

Lactoferrin is glycoprotein present in exocrine secretions and in the secondary granules of polymorphonuclear neutrophils. Lactoferrin is known to regulate intestinal iron absorption, and to participate in the defense against bacteria

SOURCE:

Human neutrophil

MOLECULAR WEIGHT:

78,000

PURITY:

> 95% by SDS-PAGE

BUFFER:

100 mM Tris-HCl, pH 8.0, with 300 mM NaCl

STORAGE:

Frozen (-20°C), aliquot in siliconized tubes

QUALITY CONTROL:

Nonreactive and negative for HBsAg, anti-HCV, anti-HBc, and anti-HIV by FDA-required tests.

Because no test method can offer complete assurance that products derived from human source will not transmit infectious agents, it is recommended that this product be handled with the same precautions used for patient specimens.

This product is sold for laboratory research use or further manufacturing only and should not be used for human therapeutic or diagnostic applications. The information presented is believed to be accurate; however, said information and products are offered without warranty or guarantee since the ultimate conditions of use and the variability of the materials treated are beyond our control. Nothing disclosed herein is to be construed as a recommendation to use our products in violation of any patents. Under no circumstances shall ARP American Research Products, Inc. be liable for damages, whether consequential, compensatory, incidental or special, strict liability or negligence, breach of warranty or any other theory arising out of the use of the products available from ARP American Research Products, Inc. Nothing contained herein warrants that the use of the products will not infringe on the claims of any patents covering the product itself or the use thereof in combination with other products or in the operation of any process.
