

Adeno-Associated Virus serotype 5 (AAV5) ELISA

| | |
|-----------------|---|
| Catalog Number | PRAAV5 |
| Name | AAV5 Titration ELISA |
| Assay format | Solid phase sandwich ELISA method. |
| Kit Control | 3 vials, lyophilized |
| Assay Feature | Fast, sensitive & reproducible titration for AAV5 wt virions, AAV5 Gene Shuttles or assembled and intact empty AAV5 capsids |
| Sample Types | Cell Culture & purified virus preparation |
| Sample Volume | 100 µL |
| Incubation | 3 hours at 37°C, 10-15 min at room temperature |
| Sensitivity | 7.5×10^9 to 5×10^{11} particles/mL |
| Storage | 2 - 8 °C |
| Configuration | 96 Determinations, 12x8 removable strips |
| Clinical Fields | Gene Therapy Tool |
| FDA Status | For Research Use Only |

This product is sold for laboratory research use or further manufacturing only and should not be used for human therapeutic or diagnostic applications. The information presented is believed to be accurate; however, said information and products are offered without warranty or guarantee since the ultimate conditions of use and the variability of the materials treated are beyond our control. Nothing disclosed herein is to be construed as a recommendation to use our products in violation of any patents. Under no circumstances shall ARP American Research Products, Inc. be liable for damages, whether consequential, compensatory, incidental or special, strict liability or negligence, breach of warranty or any other theory arising out of the use of the products available from ARP American Research Products, Inc. Nothing contained herein warrants that the use of the products will not infringe on the claims of any patents covering the product itself or the use thereof in combination with other products or in the operation of any process.
